Boundary Walls

- Indicative boundary wall locations have been shown on the DAP (length and height of boundary walls to be as per the R-Code requirements).

Access

- All lots with access to rear laneWAYS shall obtain vehicular access from the laneWAY only.

Dwelling Orientation

- The design of dwellings shall include a primary/front style elevation orientated in the direction of the arrows shown on the DAP. The primary/front style elevation shall consist of at least one major opening overlooking the primary street and where applicable POS and/or a secondary street.
- Dwellings should be designed so primary indoor living areas (e.g. living rooms - dining areas - kitchens) and a private useable outdoor area (e.g. verandah, pergola, patio) are orientated to the north side of the dwelling. These indoor and outdoor areas shall be positioned so they are open to winter sun but protected from summer sun with sufficient eaves or other shade structures. In instances where the front of the lot is orientated to the north, outdoor living areas as required by the R-Codes do not necessarily need to be within front setback areas.

- Fencing along a secondary street frontage shall be visually permeable above a 1.2m for at least two thirds of its length (fencing needs to take in to consideration Provision No. 1 under Building Orientation above - i.e. a visually permeable section needs to be in front of applicable major openings overlooking a secondary street).

Letter Boxes

- All letter boxes shall address the primary street.

Other Provisions

- Front verandahs, pergolas, patios or the like at the front of a dwelling shall be constructed as an integral part of dwelling and be constructed in the same materials as the dwelling.
